ATS Recognized with Two Industry Awards for Service

St. Cloud, MN, September 6, 2018 – Anderson Trucking Service, Inc. (ATS), a leading provider in specialized transportation solutions, was awarded two 2018 *Quest for Quality Awards* by leading industry publication *Logistics Management*. ATS received 2018 recognition in the *Dry Freight*, and *Industrial & Heavy Haul Carriers* categories.

Logistics Management's (LM) Annual Quest for Quality Awards is the culmination of a six-month research project conducted by Peerless Research Group (PRG). It has been regarded as the transportation gold standard for customer satisfaction and performance excellence for carriers, ports, and logistics providers worldwide for more than three decades.

To determine the best of the best, *LM* readers—logistics, transportation and supply chain decision makers—cast their votes strictly on the basis of service quality. This program calls for shippers to vote in the genre of services they actually use; in turn, the awards are voted on based off of direct experience with carriers they believe have consistently delivered above quality service in specific niches. ATS was once again recognized for its outstanding dedication to service delivered by Drivers, Customer Service, and Operations.

“ATS was founded on a core commitment to excellence in service nearly 65 years ago, and it is an incredible honor to be recognized as a Quest for Quality Gold winner for the 5th year in a row. Winning these awards means that we’re consistently delivering service levels above the expectations of our customers,” said Rollie Anderson, ATS Chief Executive Officer. “Our Employees and Drivers are doing an outstanding job of meeting the needs of our customers. I’m so grateful that our customers are noticing their hard work, and are continuing to recognize ATS as a leader in providing superior service.”

This year, *LM* had 4,500 ballots cast from logistics and supply chain decision makers resulting in 138 transportation and logistics services providers who earned Quest for Quality gold.

Founded in 1955 and headquartered in St. Cloud, MN, Anderson Trucking Service, Inc. (ATS), is a recognized leader in flatbed, specialized, logistics, van, and international transportation. Their service area includes all of North America (including Hawaii, Alaska & Puerto Rico), as well as the Caribbean, Germany, and other international points. With offices located throughout the United States, ATS is the largest truckload carrier in Minnesota, and the 36th largest for-hire carrier in North America, operating more than 2,700 tractors and 7,000 trailers.
