## CMCU's New Sartell Financial Center Now Open

**[Sartell, MN]:** Central Minnesota Credit Union (CMCU) is excited to announce the CMCU Financial Center in Sartell is now open. This full-service financial facility includes the Sartell Branch, Mortgage Lending, Commercial Banking, and Central Minnesota Financial Advisors. The Financial Center is also home to CMCU's Operations team.

"Our newest branch in Sartell offers state-of-the-art technology, a new branch design along with a friendly, knowledgeable team, to provide an enhanced member experience," said Gary Meyer SVP of Retail Banking. "Our Sartell staff is excited to show new and existing members the benefits of banking at our new facility."

The facility features a large open space with new technologies that transform the typical in-branch banking experience. A series of self-service machines allow members to complete common transactions typically processed by a teller. CMCU staff will be available to assist members while building relationships and educating members to enhance their banking experience. CMCU Tellers will also be available to assist members in the drive up with the use of the new Interactive ATM's.

"The greatest part of our technology is that it allows us to serve members the way they want to be served and build lasting relationships," says Tami Mesker, Sartell Branch Manager. "We are so excited to be in Sartell, such a forward thinking, welcoming and highly involved community. We have had a great time with our community events thus far and look forward to many more."

CMCU supports the local communities they serve, through volunteering, sponsoring events and contributing to local organizations and has already started making an impact in the Sartell community. CMCU is already serving over 3,600 members in and around Sartell. This location will allow them to better serve these members and help new members experience a different way of banking.

For more information about the activities or the Financial Center, including videos highlighting the new technology, visit [mycmcu.org/Sartell](https://mycmcu.org/Sartell).
