Heartland Glass adds staff

Waite Park, Minn. – Heartland Glass Company recently hired Dan Heiser as shop supervisor. A native of Winsted, Heiser graduated from St. Paul College in 2004 and has lived in St. Cloud for the last nineteen years. Eventually seeking work closer to home, he interviewed at highly regarded Heartland Glass due to its industry-leading reputation.

In his new role, Heiser will oversee the shop area to ensure quality and efficiency performance goals are met and manage activities of employees for glass fabrication and maintenance. At Heartland Glass, he most enjoys his fellow coworkers and their shared accomplishments: “Heartland Glass has a unique dynamic of people who are both knowledgeable about the industry and down-to-earth, genuinely caring people,” says Heiser.

In his free time Heiser serves as vice president of Blue Sox St. Cloud Travel Baseball, a competitive travel baseball program offering skill development in a fun, disciplined environment. A father of two, he is also involved in his children’s dance and soccer activities.

Founded in 1980, Heartland Glass is Central Minnesota’s largest custom shower door installer, specializing in low-rise curtain walls, storefronts, entrances and architectural windows. For more information, visit www.heartlandglass.com.
