Metro Bus Driver among best in the nation

ST. CLOUD —Todd DeZurik, who works as a Dial-a-Ride Operator for Metro Bus, placed third at the 2018 National Community Transit Roadeo in the Body on Chassis division. The competition was held last weekend in Pittsburgh by the Community Transportation Association of America.

This is DeZurik's fourth time placing in the top three nationally — placing as high as first place last year.

"Todd may have placed third this year, but he is always number one to us," said Ryan Daniel, Metro Bus CEO. "We've receive numerous compliments from customers about Todd's safe driving skills and dedication to providing high-level customer service."

Todd DeZurik (with trophy) is pictured with Ryan Daniel, Metro Bus CEO (left); Scott Bogren, CTAA Executive Director; and Gary Schiavone, CTAA Roadeo Committee Member (far right).

The Bus Roadeo is a chance for drivers to showcase their skills by driving through a timed obstacle course which mimics real-life driving scenarios. More information about the National Community Transit Roadeo is available at ctaa.org.

###
