

Clay Nixon Of Brenny Specialized, Inc. Named May 2018 Technician Of The Month!

Congratulations to Clay Nixon on being May's featured Technician of the Month for Minnesota Trucking Association Month (MTA).

The MTA Technician of the Month award began back in 2015. Trucking companies nominate their top maintenance technicians throughout the year and each month someone is selected. Winners are awarded based on their attendance record, work attitude, come-back-rate, loss time and CSA Vehicle Maintenance Score.

Clay started his maintenance professional career in 2012. A friend of Clay's encouraged him to go to the same school as him, thinking the career and field would be a great opportunity. We're lucky he did! Clay Nixon has been with Brenny Specialized, Inc. since 2015 where he continues his career as a maintenance professional with an amazing comeback-rate below 2%.

The enjoyment of every day being something different and the hands-on work is what Clay Nixon loves about his job at Brenny.

Clay's usual day in the shop involves everything from brakes, tires, and EGR coolers. Trailers and trucks are checked and maintained on daily basis to ensure truck and driver safety.

Congratulations Clay!
