## **POS Professional Office Services Expands Printing with Palmer Acquisition**

Waterloo, IA, Nov. 8, 2019 – POS Professional Office Services has acquired Palmer effective Dec. 31, 2019. Palmer will remain intact in their Waite Park, Minnesota production facility. Clients will continue to work with their current account and project managers.

“We are excited to be a part of such a professional and sophisticated creative printing company. We are excited to continue to provide customers with the same level of service and quality products they have become accustomed to,” said Mike Williams, President of POS.

Steve Palmer, President of Palmer, said, “I was looking for a company that would appreciate the expertise we offer in creative printing, our employees’ dedication and our relationships with clients we have served over the last 50-plus years.” “We found that in POS.”

Palmer has provided printing and creative marketing services to clients in local, regional, national and international markets for more than 50 years. The company specializes in non-profit communications, creative sewing, financial, health, and manufacturing industries, along with a variety of general business clients.

Founded in 1970, POS is a national communications company specializing in healthcare with outreach in many other industries as well. POS offers many services and products including print, payment and billing services, digital messaging, surveys and online reputation management tools. POS has five production facilities in Iowa, Utah, Florida, Minnesota and Pennsylvania, and 50 regional territory managers throughout the country.
